Vision Ahead: Scaling a Storytelling Movement

Lucknow's first talk show is ready to go national — with a model that blends purpose, impact, and growth.

Regional Language Expansion

Unlocking access to Tier 2 & 3 audiences through localized storytelling — building a Bharat-first media voice.

Docu-style Mini-Series

Launching high-engagement, issue-based visual series (health, education, entrepreneurship) with strong sponsor appeal.

Strategic Government & NGO Collaborations

Producing public-interest content aligned with government initiatives and CSR campaigns.

Educational Editions for Schools & Colleges

Curated episodes and workshops designed for youth engagement — partnerships with institutions already in progress.

Thematic Season Sponsorships

Opportunity for brands to align with curated seasons (e.g., “Voices of Change,” “Women Who Lead,” “Grassroot Innovators”) across podcast, reels, and editorial.

Funding Will Be Used For:

- Production scale-up (equipment, studios, regional units)
- Talent onboarding (research, editors, language anchors)
- Marketing and distribution across digital + OTT
- Platform and tech integration for monetization
- Content licensing and branded IP development

We're building India's most meaningful talk show platform — and we're just getting started.

LET'S COLLABORATE

WITH GOVERNMENT & PUBLIC INSTITUTIONS

Indie Talk Show is committed to nation-building through impactful storytelling. We are seeking government partnerships to amplify voices that align with social progress, awareness, and inclusive growth.

We're Seeking Support To:

Promote Government Schemes & Success Stories

Feature real beneficiaries, officers, and changemakers implementing impactful policies.

Create Educational & Youth-Centric Content

Develop informative series for students on entrepreneurship, health, innovation & digital awareness.

Support Public Health & Social Welfare Campaigns

Use storytelling to normalize conversations around mental health, hygiene, safety, and wellness.

Highlight Grassroots Innovations & Regional Heroes

Share unsung stories of local leaders, educators, farmers, and frontline workers.

Distribute Content Through State Media Channels

Collaborate for wider reach via DD, community radio, education portals & government digital assets.

What We Need

- Production Grants & Project-Based Funding
- Content Distribution & Endorsements
- Institutional Access & Strategic Collaboration
- Long-term partnerships for awareness campaigns

Together, we can amplify real stories, educate millions, and bring policy closer to the people it serves.
